

Francisco Antonio Martín Hersog

PHP Developer — Symfony · Laravel · PrestaShop · WooCommerce
+34 689 887 069 · martinherzog.fa@gmail.com · github.com/fcomartin94 · fcomartin94.github.io

PROFESSIONAL PROFILE

PHP backend developer with a Higher Vocational Training Diploma in Multiplatform Application Development. Specialized in building REST APIs with Symfony and API Platform, and Laravel services with queued jobs, webhooks, and token authentication. Hands-on experience developing native PrestaShop modules and WooCommerce plugins, relational data modeling (Doctrine, Eloquent), automated testing (PHPUnit), and Docker containerization.

TECHNICAL SKILLS

PHP & Frameworks: Symfony, API Platform, Laravel

E-commerce Platforms: PrestaShop, WooCommerce, WordPress

Data Layer: MySQL, PostgreSQL, Doctrine ORM, Eloquent, Redis

APIs & Security: REST, JWT, Sanctum, Voters, HMAC, JSON-LD

Testing & DevOps: PHPUnit, ApiTestCase, Docker, Docker Compose, Nginx, Git, Composer

Soft Skills: Problem solving · Fast learner · Teamwork · Driver's license · Intermediate/professional English

FEATURED PROJECTS

Demos & write-ups: fcomartin94.github.io

Catalog Hub API | *Symfony, API Platform, Doctrine, JWT — 2026*

Headless multi-channel product catalog API with role-based authorization.

Stock Sync Hub | *Laravel, MySQL, Redis, Sanctum — 2026*

Multi-channel sync layer (PrestaShop/WooCommerce) for products, stock, and orders via queued jobs and webhooks.

Google Shopping Feed Export | *PHP, PrestaShop, WooCommerce — 2026*

Native module and plugin generating custom XML feeds for Google Merchant Center.

E-commerce Store Builds | *PrestaShop, WooCommerce — 2026*

End-to-end test store setups covering catalog, custom checkout, and shipping integration.

Technical SEO Audit (Real Client Project) | *WordPress, RankMath, Search Console — 2026*

On-page SEO optimization for a real client, boosting performance score from 78 to 91/100.

EXPERIENCE

Data Technician | *Hospital Universitario Reina Sofía (FIBICO – IMIBIC), Córdoba — 2019 – 2024*

Managed databases and information systems, resolving data incidents and coordinating workflows between multi-disciplinary teams.

EDUCATION

Higher Vocational Training in Multiplatform Application Development Ongoing

Master's Degree in Bioinformatics & Biostatistics

Bachelor's Degree in Biology

Additional training: Programming for Solutions Applicable to 5G Environments (Virtual Reality (C#), IoT (C++) Big Data(python)), self-learning (Java, Cybersecurity).
